

COURSE 214 – Testing Your PMP Readiness

Course Description

How do you know whether you are ready to write the PMP exam? By practicing, practicing and more practicing, and testing your knowledge along the way. The key to maximizing your chance for passing the exam the first time lies in following the time-tested method of gradually deepening your understanding of the subject matter by repetition, variation, practice and testing.

Course Contents

This 24-hour module of the **PMP Proficiency Program™** will not only let you practice on exam-like questions as much as you like but will also guide you towards readiness with the help of our professional facilitators. Testing of each knowledge area and process group is carefully prepared first by taking questions in a group setting. You will get a feel for the style and approach of questions, and gradually develop a full understanding of the PMP exam language. When you reach the level of a PMP expert as a group, you will get a chance to practice on similar questions individually and therefore test your own proficiency level in each PMBOK area and group.

By the end of this workshop, you will be ready for and feel confident about the exam. So do we, because the successful passing of your PMP exam is guaranteed by Vitesse!¹

¹ We guarantee the successful passing of your PMP exam after taking the entire PMP Proficiency Program™. In the unlikely event of an unsuccessful exam attempt following completion, you are entitled to utilize our program free of charge as long as you need for passing the exam.
