

## PMP Proficiency Program™

Vitesse-OTI's unique **PMP Proficiency Program™** is for project managers planning to take the Project Management Professional (PMP) exam. The courses offered are designed to provide participants with the basic knowledge required for the PMP certification exam. The program is reviewed periodically based on participants' needs and expectations. The program currently consists of the following modules:

- PMP Exam Preparation Course (36 hours)
- PMP Exam Application Workshop (1 hour)
- Testing your PMP readiness (24 hours)

The modular format allows the student to choose areas where he or she will need the most guidance on preparation. All modules are facilitated by seasoned PMP instructors, specifically trained in delivering the topic and method of instruction applicable to each module. An overview of the program is given in regular PMP Proficiency Program Orientation sessions.

### What You Will Learn

By attending the entire program, you will be fully prepared for the PMP exam. The modules cover all knowledge areas and process groups of PMI's *Guide to the Project Management Body of Knowledge* (PMBOK Guide) in a variety of formats to suit all needs. You will not only learn the subject matter thoroughly, but will also understand how to apply it on a real project and have the confidence to take the exam following completion.

### How You Will Benefit

- You will learn PMI's framework for project management, which will prepare you for the PMP exam and improve your project management skills in general.
- You will network with professionals for the duration of the program and beyond. This will increase your chances of getting a desirable job.
- Once you pass the PMP exam after completing this program, your credential will open doors to better opportunities. You will also attend professional development events after the exam in order to maintain your credential by earning Professional Development Units (PDUs), which will develop your project management skills and offer you further networking opportunities

### Who Should Attend

- Project managers wishing to upgrade their skills and earning a credential that has become the international standard for project management.
- Project managers wishing to maximize their chance of successfully passing the PMP exam the first time.

## Course Delivery and Location

Unless otherwise specified, Vitesse's Project Management Proficiency Program courses are offered in two formats simultaneously

1. In class instructor-led at Vitesse; 359 Terry Fox Drive, Kanata ON Suite 210;
2. Remotely in real-time.
